prohibiting the planting of certain varieties of trees. Ms. Benner stated that the Ordinance was revised to eliminate the section that requires trimming of trees near utility lines, to eliminate the section related to removal of dead trees; and to add language to include vegetation. Mr. Mast stated that he is not in favor of the ordinance because it is similar to a property maintenance requirement.

MOTION: Upon motion by Mr. Smith, seconded by Mr. Sherer, Council on a vote of 6-1, authorized advertisement of the ordinance revising Chapter 21, adding requirements for trimming of trees and vegetation within the Borough and prohibiting the planting of certain varieties of trees.

7.4. Joint UCC Appeal Board Ordinance Revision: Ms. Benner expressed that the participating municipalities would like to change the required number of board members of the Joint UCC Appeal Board from five to three. Ms. Benner stated that the revised ordinance and agreement would require Dublin Borough to appoint a member, whereas currently it is only if feasible. There was a consensus to have the Borough Solicitor prepare the UCC Joint Appeal Board Ordinance amending the board from 5 to 3.

8. Committee Reports: Mr. Smith reported that the finance committee continues to meet and evaluate the finance options for the Capital fund projects and that everyone should expect to see an increase in expenses due to a various capital projects. Ms. Benner added that the finance committee is recommending including Rickert's Road (Hilltown section) and Parkside Drive with the 2019 Road Program which includes Mill Street, Meadow Lane and Meadow Circle. Ms. Benner stated that in order to include Parkside she had requested the Borough's Engineer to inspect the curbs and sidewalks along that road, which resulted in a list of properties that need to repair sections of curbing, sidewalks and driveway aprons. Mr. Zarko added that the majority of concern is that there is significant settlement along the edge of the sidewalk, which is a tripping hazard. The curbs are most important, but it's an opportunity to address these other defects which could be a safety hazard. There was a consensus for Ms. Benner to get the letters out to residents right away, to advise them of the concrete work that would be required prior to the paving of Parkside Drive.
